Comments: As a native Montanan, I am staunchly against the use of forest service land for the development of corporations/corporation run entities and large scale operations. It is one thing for a family to have a cabin; it is a far different matter to put in a destination vacation lodge. The impact on the local environment from one to another is vastly different, and entirely unacceptable. I sincerely hope this project will not be approved by those who are supposed to be looking out for the best interests of both our national and Montana heritage, our public lands.
