Comments: The proposed master plan for Holland Lake Lodge is a much needed improvement to the area. I am born and raised in Montana and enjoy every aspect about it, but I also understand people have found out what Montana is all about and moving/traveling here in droves. Denying progress is not practical. The Holland Lake Lodge area is ALREADY DEVELOPED with multiple structures and infrastructure of which are past its useful life. Leaving the ALREADY DEVELOPED area "as is" is not sustainable for the current owners or the people that want to use this location for generations to come.
