Comments: Holland Lake is a beautiful pristine area that should be protected for all to enjoy responsibly. We have let way to much of not only Montana but too much of the rest our natural preserves go to the highest bidder\$\$\$. We have not protected our most valuable resource nature!! Please do not allow yet another developer come in and privatize and destroy yet another piece of Montana for a few elitist. There has got to be another way to raise capital if that's what the state of Montana needs??? Even if it takes making it a fee area!!! Let's preserve something for everyone including future generations.....
