Comments: Holland Lake is a wonderful gem. It seems developed enough already. We love kayaking there. It's such a small , clear lake. We pick our times but can often avoid times with motorized boats. It is so peaceful. The area , however, can get very crowded at times. So many of us love it. I think a larger development would destroy its charm and destroy the tentative balance of the ecosystem. Please stop this larger development from happening. There are few places left such as this.
