Comments: We lived in Montana for years. We love to go back to these beautiful, unspoiled places. Please listen to the people of Montana, as well as those of us who return to enjoy nature, the quiet beauty and solitude. Do not sell this to a big corporation that will destroy it and turn it into a tourist trap. You are responsible for taking care of such lands for the use of all. Not selling to the highest bidder for a profit. It will be destroyed, and those of us who truly love it will no longer be able to enjoy it.
