Title:

Comments: Please consider saving this pristine lake and the surrounding area from further development. Places such as this are a national treasure that cannot be replaced once they are developed.

I understand the desire for usage and I think that the more people that experience such wilderness the better, however once developed it will lose the magic that makes places such as this the attraction that they are.

Thank you for giving me this opportunity to express my opinion and I hope that you can see the logic in my argument.
