Comments: I am responding to the proposed changes for this project. I feel expansion of units on the property will result in a negative impact to the surrounding area. The pure beauty and rustic, relatively wild habitat around Holland Lake should be preserved. Previous lodge owners have already acted as though they own the lake surrounding the property even though the water and beach are public access. I feel there should not be further development to the property in order to preserve this treasure for future generations. There will likely be an impact of many more people on the small lake which has enough traffic without the increase in traffic on roads and water. I urge you to reject the proposal.
