Comments: Holland Lake and the surrounding area are a beautiful piece of Montana. It would be a shame to build up the area just for the enjoyment of those who can afford to stay in the accommodations being proposed. We are a family of tent campers at the age of 70, have been all along with 3 children through the years. I fear that the trend to build and improve Montana for a select few, for some tourist dollars will leave the life long, long time residents out of luck. People come to Montana for its natural beauty and wide open spaces. They won't continue if those wonderful things are GONE.
