Comments: I grew up in Montana, as did my children. We traveled from Missoula to spend a day, sometimes a weekend or even a week for a family reunion at Holland Lake. My daughter wed her husband there 7 years ago, with the hope to enjoy anniversary celebrations there, as well as introducing her children to a favorite childhood vacation spot. As a single parent, I was actually able to afford the stay there with my children. I fear that the proposed changes will price many working class Montanans out of the enjoyment of this jewel. I am so very sad to think about the outcome of these changes.
