Title:

Comments: Please do not allow another resort or resort expansion in our wild lands or their boundaries. We are Montanans, not out of staters, Please Please keep sacred are previous wilderness areas and protect our national forests for the animals, air and water. This proposal is for some big out of state business whose objective is rape Montana for whatever money we can make.

I strongly object to the Holland Lodge expansion. Please be our steward and protect us from the loss of such precious wild lands. Please.
