Comments: As a native Montanan, who has spent over 17 years visiting Holland Lake, I'm writing today to implore the forest service to NOT allow this proposed expansion. Holland Lake is sacred to so many Montanans who have had the honor and blessing of spending time there. What this group wants to do with the land will ruin everything that makes Holland lake so special....quiet, unspoiled, open to all, with no view of homes (other than the current, quaint lodge). The proposed expansion would turn Holland lake into a play-ground for rich, out-of-staters, with no appreciation for the area. Please don't sellout the soul of this area. We're begging you not to allow one of the most beautiful lakes in Montana to be ruined.

Respectfully,

Sara A.
