Comments: From a concerned Montana...

I think of being born and raised here and what I love and pride myself on as a Montanan. Is the wild outdoors, plentiful hunting lands, and fellow Montanans that love the same thing. Adding an additional resort to our state is not a good idea... we already have two big resorts big sky and whitefish. And by adding the Holland resort we are taking away from already scares hunting lands.... We going to increase visitors and increase out of staters buying up houses and running Montanan out of Montana because they can't afford housing here.
