Comments: As a Montana resident who has recreated at the Holland Lake area often and during every season, I'm opposed to the proposed changes to Holland Lake Lodge and surround. I value the relative low number of people who recreate in the area. I question the environmental impact of increasing not only the capacity of people visiting but also staying overnight in this area. The NF and a major portal into the Bob Marshall Wilderness is not the right location for an endeavour such as this proposed expansion. Please consider NOT allowing the expansion and changes.
