Title:

Comments: I realize that Holland Lake Lodge may have to "upgrade" to ensure the future of the facility, however, an upgrade should not entail destruction of the unique character of this historic place. I vehemently oppose the project for many reasons:

Destruction of wildlife habitat

Removal of trees

Change of character

Water quality degradation

Congestion

Traffic

It is most unfortunate that corporations with bottomless pockets can come up with such an offensive, over the top plan that will forever change such a beautiful place.
