Comments: i completely object to having this amazing place in Montana fall into the hands of some out of state entity. they do not have the capability of understanding how beautiful this place is just as it is. they want to convert it into some "destination" location only to make money. they don't care about the sanctity of this place. not only will it destroy ever shrinking habitat of Holland lake, it will also be the destruction of all the places in the vicinity. there will be more traffic, more road kill & then there is the habitat loss & human encounters with the current, wild inhabitants. we don't need more people in Montana & the animals certainly don't. please leave well enough alone. let the beauty and sanctity be as it is.
