Comments: I vehemently oppose the proposed development by POWDR at Holland Lake. Not only will this development change the entire dynamic at Holland Lake-peaceful, natural, and free to enjoy-but I fear for the environmental impact of an entire resort being placed on the lake, beginning with the removal of over 100 mature trees. Please do not let an out-of-state developer buy up a place that so many of us Montanans hold so dearly and pervert it for profit. As a government entity, you serve the people, and the majority do not want this.
