Comments: Please do not expand the Holland Lake Lodge! This beautiful lodge sits in some of the most gorgeous, pristine, and still relatively untouched landscape. Feel free to renovate the current building, but humans have expanded too much and we already see the devastating effects of that expansion on our environment and native wildlife. As someone with parents who live in Montana, but I myself have moved to another state, please stop developing Montana. It is one of the last states with so much wilderness but as people discover it's beauty, big business is sniffing out opportunities to make a profit with little regard for what truly makes Montana special- people leaving it mostly alone! Keep Montana wild, renovate the lodge and offer special experiences for a few rather than a manufactured resort experience for the many. Protect our earth and wildlife- do not expand!
