Comments: Please preserve this land! Please do not sell it to developers! That would be heartbreaking and truly show me that even the people who are supposed to be the protectors of our lands only truly care about money. Please don't do this. This land is a habitat to so much important wildlife, so special to Montanans. It would be awful to see this beautiful land become a resort for the Ultra-Rich, who have already been coming to MT in DROVES in the last few years and making it harder and harder for locals to get by.
