Comments: I am opposed to this, mostly because the corporation POWDR taking over. I would much rather wait for a local company that could help get the Holland Lake Lodge back on its feet. I worry POWDR is looking to make this a larger resort and potentially build a Ski Resort in the future. I would rather Holland lake stay as primitive as possible. Many people are still able to enjoy the lake without needing it to be a resort. As a 3rd generation Montanan, I would like Holland to stay away from the big spotlight. There are plenty of resorts for locals and non-residents to enjoy. Please consider that Holland is a special place for locals to enjoy and does not need the pressure of a large resort.
