Comments: I vehemently oppose the changes to Holland Lake Lodge. I am from Montana and I grew up going to family reunions at the Holland Lake Lodge. Many fond memories were formed there. My young family still spends precious time together at Holland Lake in the summers. We go for the beauty and peaceful environment. The proposed changes to the Lodge will not only destroy a local, historic treasure, but will also destroy the environment of peace that brings so many visitors to the area each year. We do not wish Montana's pristine places to fall to pressures which have destroyed other pristine places in the West (like Aspen, Co). We wish to protect our heritage and way of life in Montana. Reconsider this proposal and allow all Montanans a chance to decide when and to whom we surrender control of our cultural heritage! The people own the Forest Service lands and we demand to be heard!

Thank you for your careful consideration.
