Comments: I would like to go on record to express my concern. The obvious is that the intent and outcome of such a build as described will only decrease the overall enjoyment and environmental downside to such a build is not in line with the character and values of the community and wildlife. To simply build mega structures so people and fly and drive from out of state and burden the environment for their own temporary or monetary gain is not acceptable. Please do not allow this proceed our kids depend on you .
