Comments: I am vehemently opposed to the expansion of Holland Lake Lodge and incorporated facilities. Any expansion on this leased land will have profound social and environmental impacts on the Holland Lake area, that once sustained, will be unable to be easily undone. The amazing character of Holland Lake is in that it is not a developed area. This is a sacred, pristine, location that out of state developers/corporations are looking to exploit. As a landowner of the land that Holland Lake Lodge is sitting on, I say "NO" to any development. This land is to be conserved for future generations, not developed and destroyed for the sake of creating a resort. Montana has fallen victim to out of state developers again and again. It is finally time to say enough. Keep our public lands open and undeveloped.
