Comments: As a tax payer of our great state, I adamant oppose the proposed development of Holland Lake. It now stands as a landmark of serenity and beauty enjoyed by local citizens, families, and a place used for special events Montana style. To destroy historical landmarks, log the forest and disrupt wildlife for a corporate big city hotel is unconscionable! Such a travesty will diminish the history, keep Montana residents from using the area, increase traffic, and become yet another establishment only for the rich and famous. This should be a decision put up to citizen vote, not something to pad the pockets of realtors and developers. Please hear me again, I and everyone I've spoken to are opposed to this project.
