Title:

Comments: I am writing to oppose this as it will drastically change the nature and character of Holland Lake and the surrounding area. What is now a quiet and peaceful area, will become a commercialized behemoth for capital gain. All of the structures currently standing on the property hold significant historical value and memories for many individuals and families. Allowing these to be changed, removed, or destroyed would be heartbreaking to see. In addition, the traffic increase to Highway 83 would be detrimental to those who use the highway frequently.
