Comments: I do not support the proposed development of holland lake. It will forever damage this Montana jewel. This is exactly what is ruining Montana. Large out of state corporations coming in and ruining Our special places. This is not to mention the logistical challenges of this such as finding staff. Much of Montana is struggling to find enough employees particularly in the service sector. What makes this remote mega resort think that they will actually be able to staff the place when every other community in Montana cannot find enough employees to work. Please help keep Montana, Montana and not continue to sell out to the rich corporations.  
Thanks
