Comments: Holland lake is one of the special places in Montana. From hiking to the falls, camping and boating on the lake it is a great place to take the family. That being said over the last ten years the popularity of the lake has exploded. The parking lot for the trailhead as well as the boat put in are overflowing all summer long. With the addition of such a large resort this will compound the issues with overcrowding. The forest service needs to do an impact study regarding this instead of just going ahead with allowing the project due to some loophole. Holland lake is a treasure that Montanans value and the addition of such a large compound will irreparably change holland lake and the surrounding area forever. I would ask that you take into consideration the opinions of Montanans and not just the special interests of a large out of state conglomerate.

Thank you for your time,

Micah Wells
