Comments: This proposal is yet another sell-out by big business. Frankly, Holland Lake is a beautiful place in Montana that does not need to be developed into another tourist spot. Is it necessary to destroy another piece of Montana by developers. I live here, pay taxes here, and my voice as a RESIDENT should be heard! We simply need to stop selling out our forests to persons that may or may not travel through here once a year. Montana's beauty needs to STAY. The USDA serves all people and should stand up tall for our state's beauty and resources.
