Title:

Comments: I do not want my tax money to fund any of this project. Lived in Condon Montana in the summer of 1959 we spend every day at Holland Lake during the summer than got married and we still camped at Holland Lake they don't need a big complex in there so out of staters can come in and wreck our beautiful lake and surrounding with big hotels and apartment buildings the lake is only 2 miles long and that is only large enough to hold our own people that enjoy that lake and it beauty please don't let outsiders come and take it away from local people.
