Comments: As someone who visits Holland Lake multiple times per year allowing this would completely change and in my mind, destroy one of the most pristine lakes in Western Montana. This is just wrong. We cannot allow rich out of staters to continue to destroy our home state in the name of lining someones pockets from out of state-or in state for that matter. PLEASE do not allow this to move forward. We need to make a stand to save our Montana for generations to come and stopping this is a big step in doing that.
