Comments: I am avidly opposed to the expansion at Holland Lake resort! If there was ever a place where an expansive impact study should be done, its at Holland! This is NOT what the public wants. And by public I mean the people who live here. People from out of state will come and go, while the people who have lived in this valley, cared for this land, will not be able to afford the lodge. I implore you to give more consideration to the voices of the locals. Montana is loved for it's mostly, still untouched beauty. Please don't sell Montana for monetary gain.....
