First name: Margaret

Last name: Snyder

Organization:

Title:

Comments: Please do not allow this complex to ruin what is left of a pristine lake. I will bring in so many more people than the area can accommodate with cars, motorcycle and truck exhaust. With the increase in traffic, there will more safety problems on the highway. There will be more animal/human encounters that may lead to a bad outcome for one of the two parties.

Montana is currently being overrun by newcomers, please at least keep this area from population caused deterioration.

The Park City company can build in Utah, leave Montana alone.
