Comments: As a full time resident at Copper Mountain my family and I strongly support the improvements to the mountain bike trails and Timberline chair lift. We use the mountain bike trails at least once a week and enjoy, and appreciate, the improvements that have already been made. As avid mountain bikers we see across the state how properly designed trails minimize erosion and improve accessibility for all types of riders. The recent improvements show that Copper knows how to build trails and that they can do it in a way that is sustainable and fun for all abilities.
