Comments: I am adamantly opposed to further development of the Holland Lake Area.

This is a spectacular area that is used by hikers and packers, to access the Bob Marshall Wilderness complex.

Development of the Holland Lake Lodge area will irreversibly damage this historic area, and turn it into just another horrific eyesore to the generations of people who have enjoyed it for what it is, a wild and scenic area. It will also ruin the area for the future generations, who have yet to experience it.

The only possible reason, that I can see, for turning this beautiful area into a commercial, big corporate resort, is greed and political gain, by those involved..

If this is allowed to begin the urbanization of our scenic areas, where will it end?

Please do not allow corporate greed to destroy the Montana we know and Love!
