Comments: We have been camping at Holland Lake campground for many years. It is one of the few places that you can go and have a quiet weekend. This expansion will totally ruin this. Not to say that this will effect the environment. With this expansion there will have to be additional need for sewage to go. I don't believe it will create local jobs. The owner of the lodge now only hires out of state chefs. He also has made it so only registered guests can be on the property. Nobody can eat in the restaurant. We have been asked to leave more than once. It will only be an exclusive resort. We have enough of these already. PAW's UP is one, Triple Creek is another. Being from MT I cannot afford any of these resorts and the owner of Holland Lake is trying to do the same thing. Please do not let this pass. Please keep this a wonderful quiet place for people to go.
