Comments: I object to the proposed Holland Lake Lodge expansion. The proposal would drastically increase the number of people recreating at Holland Lake. This area is a quiet, beautiful area, already developed and enjoyed by many people. A drastic scale-up will tarnish the experience for everyone.

I would be OK with a modest expansion of the lodge and facilities, but this is a huge expansion, not in keeping with the quiet, uncrowded nature of the area. The commercial desires of a developer should not override the desire to keep this area beautiful.

The project is certainly significant enough to require a full environmental assessment.
