First name: Patti

Last name: Meek

Organization:

Title:

Comments: While the surrounds of Holland Lake are evolving, the size and scope of this Project will promptly and forever extinguish the remaining Peace and Serenity of Holland Lake Campground and the local forest. This will not be beneficial for local wildlife or for the environment, not to mention what would happen to access for the local people.

Please reconsider letting this development take place.

Thank you,

Patti Meek on behalf of all native Montanans
