Comments: Hi,

I just recently learned of the major change proposed for Holland Lake, as I haven't heard any news about it this summer. I realize that change is inevitable and that improvements need to be made to the resort, but I haven't heard about an environmental impact being required as well. At the very least this should be required because of the sensitive and pristine nature of the area. It would be devastating to see a major chain or corporate Resort in this Wilderness location which would be totally out of character to what surrounds the area and the impacts this would have on the neighbors as well. I would also appreciate a longer public review and comment time frame so the larger communities that spend time in the area have time to become more familiar with what is being proposed.

Thank you!

Mary Person
