Comments: Leave Holland Lake as is! Deny the new big fancy privatized resort. If you feel that updates are needed, instead of allowing an out of state land grab, consider improving and enlarging the existing campground. Or adding a campground. Keeping Holland lake natural and allowing it to shine in all its glory should be top priority. I am asking you to formally deny the resort development that will destroy the shore access to Holland Lake, bring more people to an steady popular area, and will quite frankly needlessly detract from the Holland Lake experience.
