Comments: Allowing this project to take place would lead to the further demise of the state of Montana. Holland Lake Lodge is a gem, and while it is in need of repairs, it is not in need of expansion. More and more people flock to Holland Lake to enjoy it's beauty. While I do not mind sharing with other Montanans, this expansion will increase the number of out-of-state visitors. As we have seen happen with Whitefish and Big Sky, housing and property prices would go through the roof.

Staffing this expansion would be an issue. We visited the lodge a few weeks ago, and were unable to make purchases from the gift shop because there was one person on duty and she couldn't leave the bar.
