Comments: I have not enjoyed being trickled down upon these last 43 years. Have you? We probably can't save the old Holland Lake. We cannot even save clean air and clean water. Life has been trickled down upon by a small mass of rich who appear to be in it only for the money. Remember Sleeping Child Hot Springs? All this ego will make money, make somebody feel good, and eventually it will crumble taking our children down with it. Did you vote for this? Do you think we will all be living in technological domes or that the space people will come in the nick of time? Just following the rules? Putting food on the table? It's hard to say no to money that's why we should have seen this coming. Thanks for your time. We are all in this together. good bye.
