Comments: Please don't destroy Holland Lake for profit. As Montana's population grows exponentially in size, it is getting harder and harder to hold on to treasured spaces. We are faced with the ever increasing threat of the destruction of these places in the name of profit. Holland Lake is an amazing place and a piece of this states history. Allowing a massive new commercial enterprise to take the place of the existing Holland Lake Lodge will not only destroy that history but will also have an irreversible negative effect on both the lake itself and the experience of those who use the lake to escape and recreate. Please take into consideration the experiences of all Montanans and all Americans who visit this lake and not just the influence of the wealthy few who attempt to exploit its beauty and in the process kill it.

Thank You,

Matt Young, lifelong Montanan.
