Living in Missoula, Holland Lake is one of the wild places that holds a very important place in my heart and in my memories. My husband and I bring our family to this trail whenever they visit as it is one of the most accessible hikes for older family members with a huge payoff-the falls!

We also had a very meaningful memorial for a friend lost to suicide and spread some of his ashes at the lake, his favorite place. The idea that this sacred spot could be desecrated by ultra-rich developers looking for nothing more than profit and bringing in more out-of-staters to ruin our wild home hurts to the core. Please listen to the actual people who live here and do not allow this project to move forward.
