Comments: The proposed expansion of Holland Lake Lodge is concerning for multiple reasons.

- 1) The proposed facility would accommodate 150 people. How would this number of guests recreating in the area impact the surrounding environment including flora and fauna?
- 2) The number of proposed guests would put pressure on the emergency services in Condon. How will the rural and isolated community of Condon be able to handle this significant population increase?
- 3) Western Montanans are in the midst of a housing crisis. The proposed resort expansion will require additional laborers. Where will these individuals live? Expanding the resort will put pressure on a housing market already in crisis.

Due to the environmental, social, and socio-economic implications of an expanded Holland Lake Resort, I object to this project as proposed.
