Comments: I am opposed to this project for a number of reasons. 1) Lack of infrastructure. From healthcare, road maintenance, to garbage service. I think that promoting heavy use at a remote lake is bad business. 2) Who are we serving? Local and visiting families have used Holland Lake as a beautiful and affordable family vacation for years. Why wouldn't we prioritize this use group instead of the wealthy? 3) Conservation not exploitation. We should be promoting sustainable use and not development.
