Comments: I oppose the Holland Lake facility expansion! Holland Lake is already a motorized lake which substantially reduces the peace and serenity of that gorgeous lake! This area is wildlife habitat for many species, not to mention those on the endangered species list! Bigger developments destroy more habitat and take away from the natural beauty of the area. We moved to this area to "Change our Pace", and enjoy the surrounding wilderness areas and wildlife that call it home! Please don't affect that peace and tranquillity that we have by making unnecessary expansions!

Thank you!
