Comments: I do not want to see Holland Lake being developed. I have lived here 61 years and the Montana way of life is going away as we know it. Just because you have money is not a reason to change what Montanan's know and cherish. Please do not let them come in and change Holland lake and it's buildings so that only the rich can enjoy it. It is time to stand up and say go home and change your own state and leave Montana alone.
