Comments: Understanding that the lodge does need updates, I strongly disapprove of expanding it into a resort that Powder is wanting to make it into. I do not feel that Holland Lake and the surrounding natural resources could support this kind of expansion while maintaining the integrity of what makes Holland Lake the special place that it is. We are losing too many special places like Holland Lake to commercial interests and development as it is. I propose inducting Holland Lake Lodge into the Registry of Historical Places and the limited development that would be included in that designation.

Thank you,

BCM
