Comments: Please stop the out of state corporate developers from coming in and taking over our beloved Holland Lake Lodge. This is not right for Montana. The valley is already stressed by out of states moving in with their own agendas. We do not need this. Ask yourself, who is going to visit this place once it's only affordable for 1%'ers? We do not need another Quinn's Hot Springs where something that was awesome for locals is not even in the cards anymore and reserved for high end visitors. A local can barely visit Quinn's and use the pools because it's always full of travelers from out of state. Same thing here, save this place for the locals who truly love it, know the history, and will maintain its core values. The next thing this company is goin to seek to do will be put a cell tower there so their guests can have all the amenities they are used to. This is the opposite of what we need right now. Case in point, I was forced to vacate my home on the bottom of Big Mtn Rd that I had been leasing for 5 years due to a developer wanting to make a mega development, and 5 months later I'm still homeless and my place is still vacant. These people don't care about the impact they have on our locals, on our culture and on the animals. STOP THIS NOW!!!
