Title:

Comments: My name is Sam, and I've spent the past three summers living in the Swan Valley, and the past 12 years visiting Holland Lake whenever I can. I hope this project will be reviewed with the strictest possible scrutiny as a matter of its environmental impact on Holland Lake and the Swan Valley as a whole. Such an expansion would strain an area (Holland Lake in particular) that has already seen a massive influx of visitors in recent years, and seems likely to have a negative impact not only on the local environment, but on current and future residents of the valley seeking to live there year-round.
