Comments: My family visits this location every summer for rest and relaxation. This lake cannot handle a 10,000 square foot lodge and numerous out buildings. The amount of people this will bring to the lake will cause massive problems with wildlife and surrounding habitat. I could see conflicts from the local campers and the people that stay at this resort. It will over crowd the lake. The powers that be tried to pull a fast one and this needs to be examined more closely.
